

DEFENSIVE DRIVING FOR PROFESSIONAL TRUCK DRIVERS

(National Safety Council-Professional Truck Driver Course-5th Edition)

IN PERSON ONLY

Would your driver like to refresh their driving knowledge?

Have you hired a new driver for your company?

Has your long term driver received a moving violation?

Has your driver experienced a near miss or a crash while driving?

Unsafe driving can be your biggest financial liability – even more so than fuel costs, maintenance expenses or insurance premiums. You can't always control outside factors, but you can control how safely your fleet operates.

This training focuses on collision prevention through hazard recognition and application of collision avoidance techniques. In addition, the course also addresses common driving violations that result in collisions, and how to change driving habits to reduce moving violations.
